1 INTRODUCTION

Infraco Consulting is committed to leading the industry in minimising the impact of our activities on the environment and recognises the need for continual improvement regarding environmental impact and sustainability. The EMS Policy is subject to an annual management review.

2 POLICY

Infraco shall continually seek to reduce our use of resources such as water and energy, seek suppliers involved with reducing environmental impact, and continually improve on our 'reduce, reuse, recycle' materials. Infraco is committed to complying with all environmental compliance obligations.

Our Environmental Management system consists of:

- **Policy** – Our statement and commitment to the environment.
- **Objectives** – Our goals for reducing environmental impact.
- **EMS Manual** – The link between our processes and the requirements of ISO.14001.
- **Aspects, impact, control, and monitoring** – Information on our environmental aspects, their impact, our control and monitoring methods and our environmental objectives.
- **Processes** – detailed processes to be followed by employees to reduce environmental impact.

The Managing Partner has overall accountability for Environmental Management System. The HSEQ Manager is responsible for the development, implementation, and review of the environmental management system.
